UNICEF Price data overview

Background: UNICEF procures key essential and strategic products for children. To provide greater transparency, UNICEF publishes historic, current, and future awarded prices for some essential and strategic products. UNICEF lists prices based on its mandate, commercial terms, and long standing relationship with industry. All prices are in US Dollar. Euro prices are converted at the UN-official rate of exchange published by <https://treasury.un.org>

Information disclosure policy: Ref. UNICEF Executive Board document E/ICEF/2009/15 (the 'Accountability Report'): UNICEF makes reliable and timely information available about existing conditions, decisions, and actions related to the organization's activities, in an accessible, visible, and understandable manner, unless deemed confidential. UNICEF makes public its international procurement solicitation notices and awarded contracts. UNICEF publishes the information on UNICEF Supply Division's website and the UN Global Marketplace. UNICEF Supply Division's website also provides procurement data by vendor, country, amount, and type of services/goods.
