

LNCT

Learning Network for
Countries in Transition

Wrap Up: Future LNCT Focus Areas

Tangerang, Indonesia
July 3-5, 2019

The six LNCT focus areas were shaped by country challenges identified in the first year

Managing the Gavi transition

- Exchange of knowledge and experiences **managing immunization functions** during transition
- Sharing of where countries are in the transition process

Making the case for immunization financing needs

- Support to develop and use clear economic, financial and health arguments to **make the case for financing for immunization within government**

Vaccine hesitancy

- Help countries **develop strategies and actions** to address a variety of vaccine hesitancy issues

Immunization and health reforms

- Provide resources to identify risks and opportunities and effectively **argue for immunization during health reforms** such as the introduction/expansion of **national health insurance**, increasing **private sector engagement**, or **decentralization**

Vaccine procurement

- Support countries to **optimize quantities** procured while **minimizing costs** and **risks of supply shortages**
- Support countries to access appropriate pricing for quality vaccines in order to **make informed decisions**

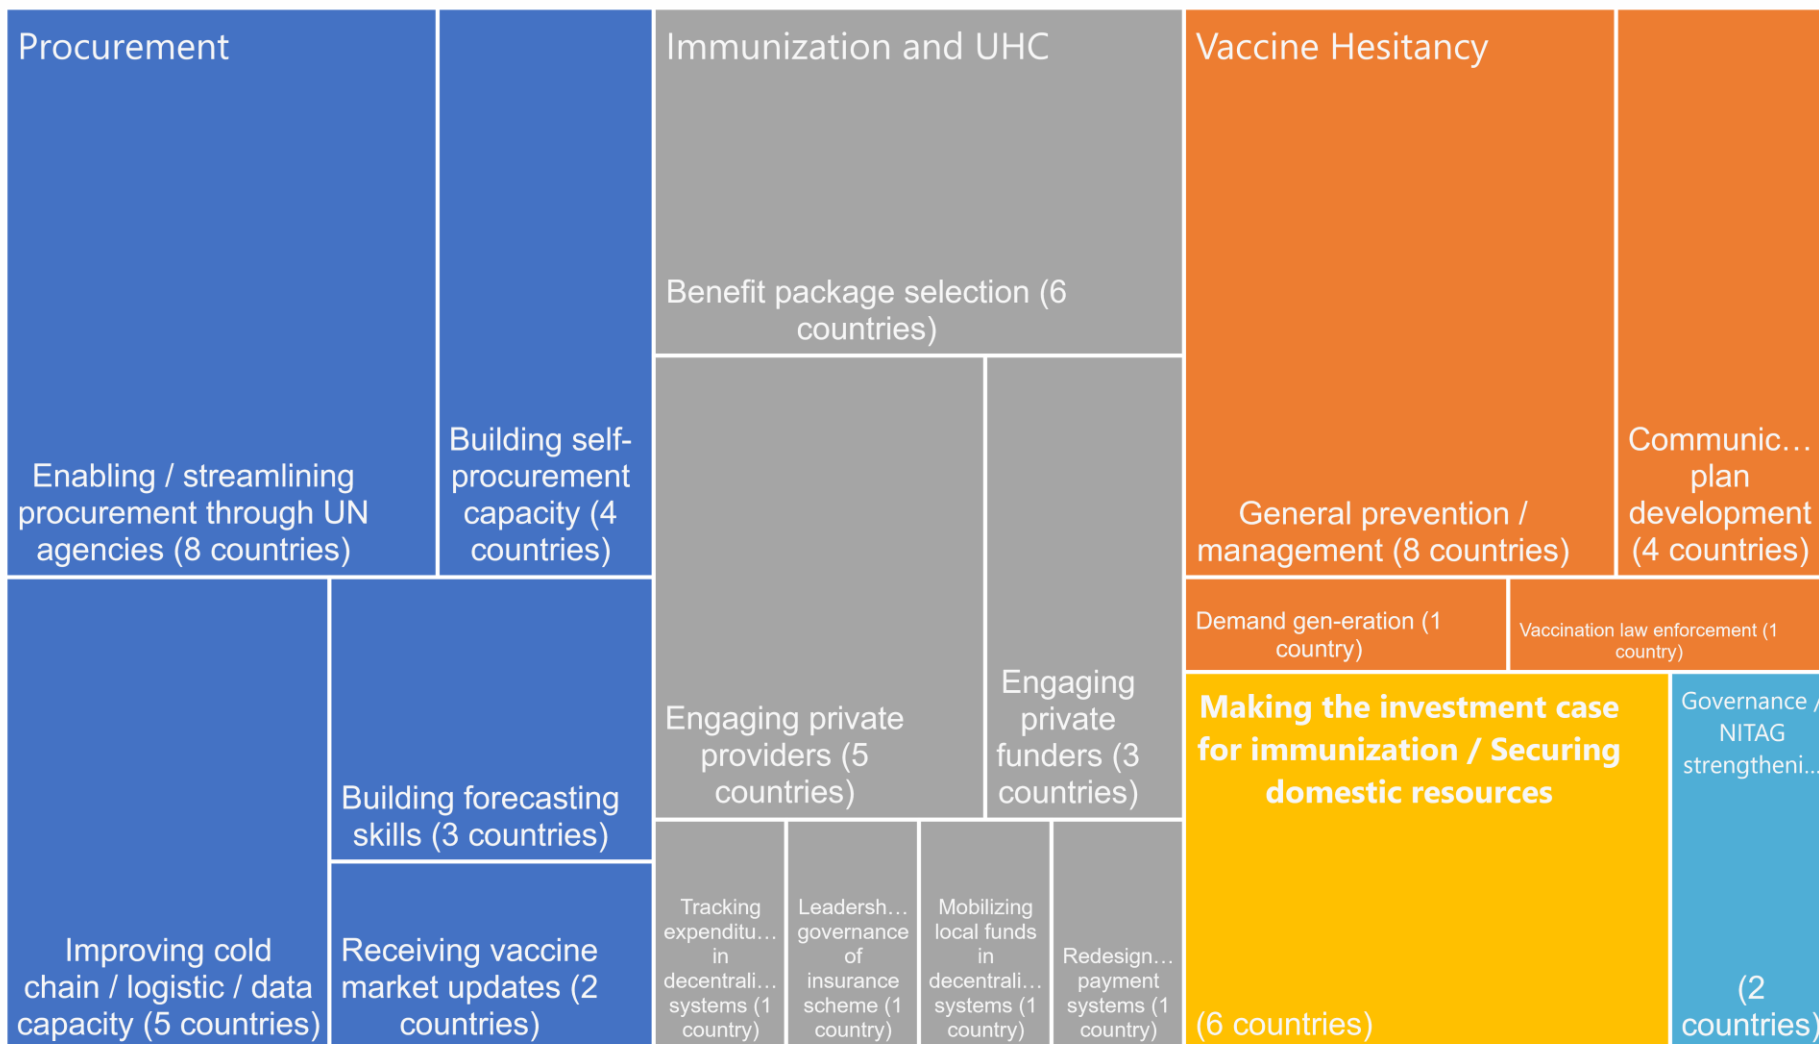

Capacity building and country twinning

- Provide focused support through structured **country-to-country twinning arrangements**
- Develop **practical tools** to improve capacity building in priority areas

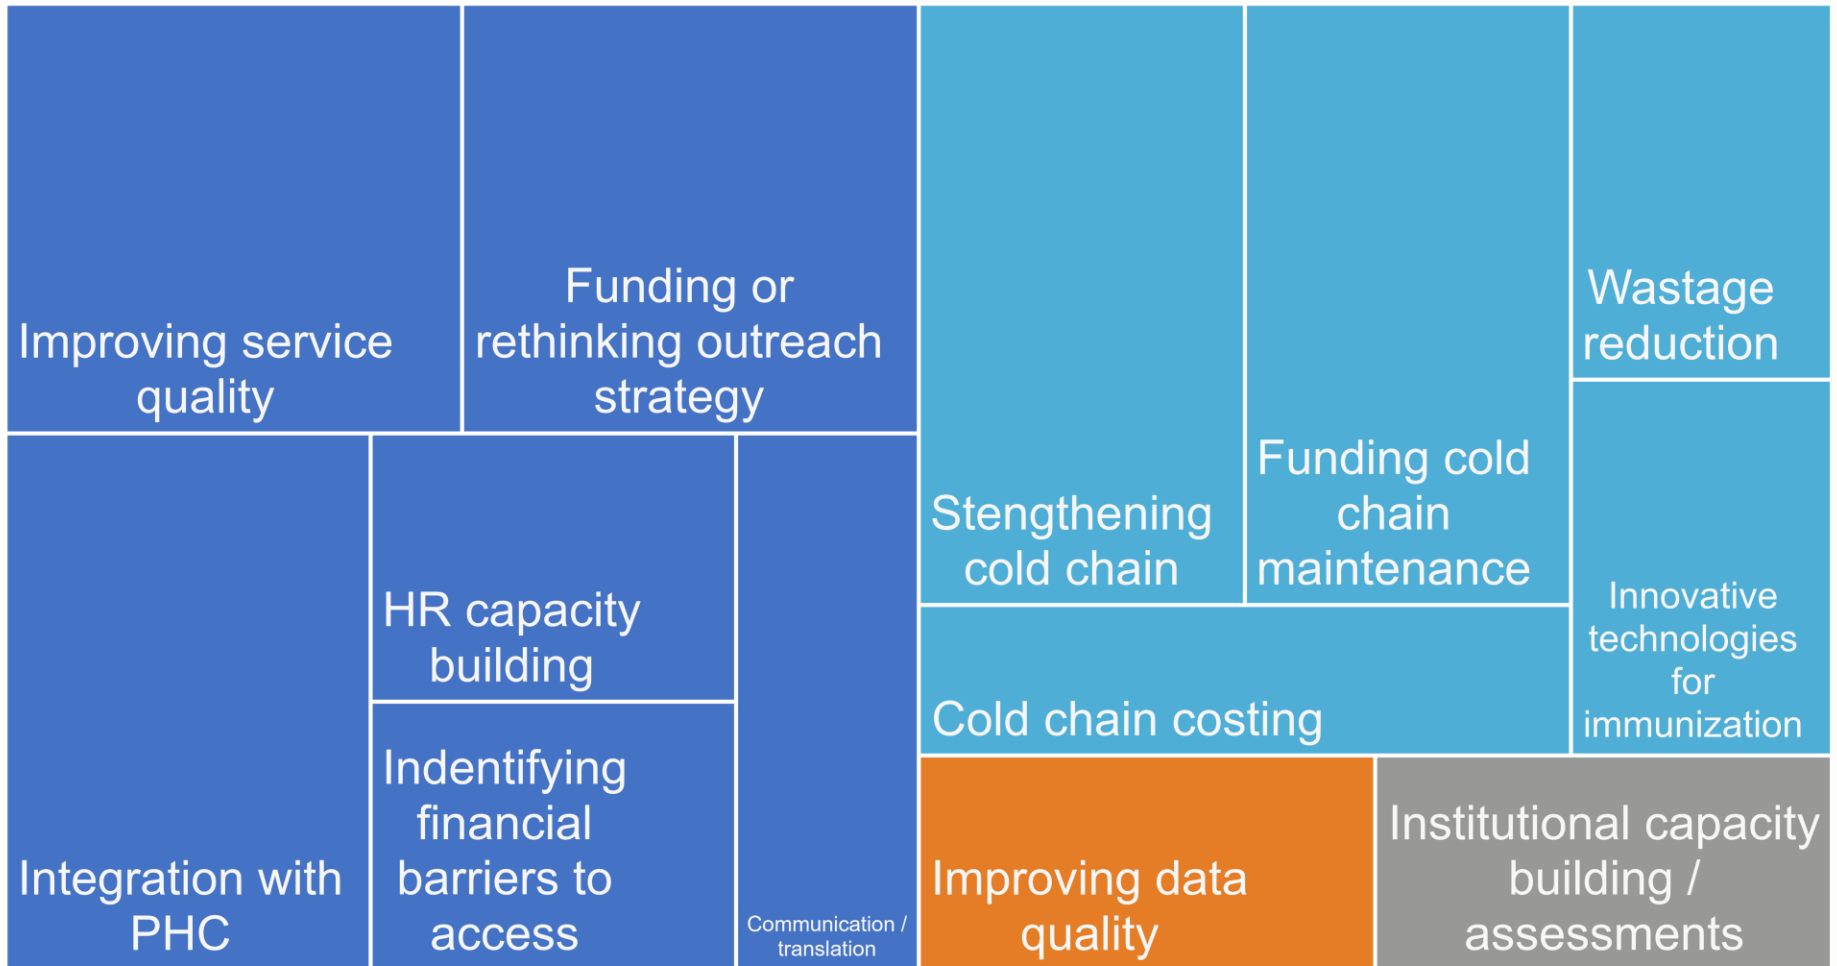

Review/Refine Work Areas for the Future

- **Completed**
 - Solicit ideas from countries
 - Working group discussions (R4D, BMGF, Gavi)
- **Today and over next several months**
 - Country votes to identify top priorities
 - Review with LNCT Steering Committee
 - Refine work areas for SC review

Priorities identified through Country Core Group Discussions

New LNCT Workstreams Proposed by Country Core Groups

■ Service Delivery ■ Cold/Supply Chain ■ Data Quality and Use ■ Governance / Management

*10 of 13 countries reporting. Of reporting countries, only 4 listed priorities beyond LNCT’s existing workstreams. 4 only reiterated existing LNCT workstreams as priorities.

Topics for Consideration

- Forecasting and budgeting for procurement
- Strategic procurement
- Immunization and health insurance
- Engaging private providers
- Engaging private sector for advocacy and social mobilization
- Preventing and managing vaccine hesitancy
- Measuring and monitoring vaccine confidence
- Resource mobilization in decentralized health systems
- Integration with PHC

Voting Rules

- Every country has 3 votes
- Cast your vote by placing a sticker on the signs around the room
- You may cast all 3 votes for one work area, or split the votes across 2-3 work areas
- 5-10 minutes

- *Focus on high priority challenges*
- *Consider challenges with more potential benefit from collaborative learning*

Any questions?

Country Voting and Results
