HONDURAS DASHBOARD

10.4 million Population (2022)

40% Population living in rural areas (2022)

70 Life expectancy at birth (2021)

$2,740 GNI per capita, USD (2022)

Facts about Honduras’s National Immunisation Programme

- Standing technical advisory group on immunisation (NITAG) 98% percentage of total expenditure on vaccines financed by government funds (2022)
- AEFI monitoring system 97% percentage of total expenditure on routine immunisation financed by government funds (2022)
- Line item for vaccines in budget
- National Immunisation Strategy (NIS) in place

Antigens on the National Vaccination Schedule

- DTwP-Hib-HepB
- Influenza
- MMR
- PCV
- IPV
- OPV
- RV1
- BCG
- VitA

HONDURAS DASHBOARD

**2016**
Year of transition from Gavi support

**47,000**
# under-immunised children (2022)

**60%**
districts with DTP3 coverage at or above 80% (2022)

**DTP1 Coverage (since year of transition)**

- 2016: 98%
- 2017: 92%
- 2018: 93%
- 2019: 89%
- 2020: 85%
- 2021: 82%
- 2022: 80%

**DTP3 Coverage (since year of transition)**

- 2016: 95%
- 2017: 90%
- 2018: 91%
- 2019: 88%
- 2020: 80%
- 2021: 77%
- 2022: 78%

**New Vaccines Introduced**
- Human papillomavirus (HPV) (2016)
- Pneumococcal conjugate (PCV) (2011)
- Rotavirus (2009)

**Coverage of New Vaccines (2022)**
- 50% Human papillomavirus (HPV)
- 78% Pneumococcal conjugate (PCV)
- 80% Rotavirus

**Zero-dose estimate for 2022 was 20%**

**DTP3 dropout rate for 2022 was 2%**
